Dear Mr. Ashworth:

Attached is our response to your request for information regarding the Powell Road landfill. We wish it could be more informative.

We have not located records concerning the Powell Road Landfill nor do we know if any exist. Managers responsible for Operations, Maintenance, and Purchasing do not recall any hauling by the Dayton Schools into this landfill.

We will continue checking but have little reason to believe any new information will be found.

Attached is a copy of a letter, dated October 16, 1989, from John Lenehan, requesting an extension of the response time until today's date.

Sincerely,

A handwritten signature in dark ink, reading "Donald E. Bogard". The signature is written in a cursive style with a large, looped "D" and a trailing flourish.

Donald E. Bogard

Re: Request for Information Pursuant to Section 104(e) of
CERCLA and Section 3007 of RCRA, for the Powell Road
Landfill in Huber Heights, Ohio. 5HSM-12

Dear Sir:

This will confirm our telephone conversation of Thursday October 12, 1989, in which we discussed the information request sent to the Dayton Board of Education for the Powell Road Landfill. During our telephone conversation, I inquired as to why the Dayton Board of Education was being require to respond to the information request. You indicated that the EPA has received information in the form of trip slips that the Dayton Board of Education has had, or was the source of, materials dumped at the site.

I indicated to you that to check since 1970, the source of materials dumped at the Powell Road Landfill directly by the Dayton Board of Education or its waste haulers would be an extremely difficult and burdensome task, if not impossible. I did not know if any records exist which would indicate what waste materials were hauled away and where they were dumped. However, the Dayton Board of Education would make every effort to comply with the information request.

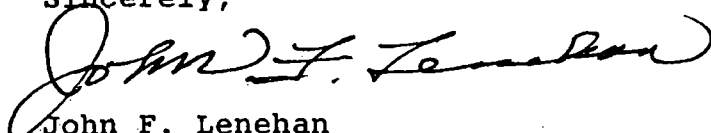

During our conversation, I also asked for an extension of thirty (30) days for compliance with the request for information. You stated that such would be granted upon written request.

Please consider this letter as a formal written request for an extension in which to file a response to the information request, until November 13, 1989. Please
